EMPLOYMENT HISTORY

Lead Developer, [Web & Mobile] at Freelance, Remote

October 2023 — Present

As a seasoned freelancer, I've collaborated with diverse clients, delivering tailor-made solutions that seamlessly integrate front end functionalities with efficient back end systems. My expertise lies in crafting intuitive user interfaces, ensuring optimal user experiences across web and mobile platforms. With a keen eye for detail and a passion for clean, maintainable code, I thrive in dynamic environments, consistently exceeding client expectations and driving projects to successful completion.

Tech Lead [Mobile and Web] at Orange Health, Bengaluru

September 2022 — September 2023

OH's vision is to make healthcare seamless for consumers in their homes by enabling doctors to treat their patients in real time.

- leading the consumer product team having 8-10 folks including devs, QA, and design.
- Using Agile (Scrum and Kanban) planning the tasks, enforcing best practices & test driven development.
- Showcasing how a feature is creating an impact & tracking deliverables.

Orange Health Patient App [React Native]
